

Taking Back Control

Maintaining Healthy Weight in Mid-Life

Do you feel as though you're losing the battle against cravings and unwanted pounds?

Are you confused as to the best way to maintain a healthy weight in your midlife years?

In this four week class, you will learn:

- The hidden causes of weight loss resistance
- Simple strategies for maintaining a healthy weight and a healthy metabolism
- Behavioral techniques for breaking patterns of habitual overeating

Combining the latest research on weight loss with practical information on menu planning, recipes, food shopping, and tips for preparing foods that support weight loss.
